

Double Cleansing Method

If your skin looks dull, doesn't feel fresh or is prone to breaking out, you may not be purging enough dirt, oil and impurities from your skin. To give your skin a complete clean, you need to first remove surface impurities so that your cleanser can clean deep into pores.

How it works

Step

1

Thoroughly removes surface impurities

- Not all cleansers are designed to thoroughly remove stubborn surface impurities like sunscreens and make-up. Start with an effective make-up remover to properly prepare your skin for a deeper clean.
- NEUTROGENA® Make-up Removers are specially formulated to wipe away 99% of stubborn make-up and prepare your skin for a deeper cleansing.

Step

2

Cleans deeper into pores

- Now that you have a clean surface, your cleanser can work harder and go deeper into pores. Oil and dirt in pores can not only cause problem skin, they dim skin's radiance.
- NEUTROGENA® cleansers clean deep into pores removing dirt, oil and impurities, revealing softer, smoother skin that glows.

Neutrogena® Rapid Wrinkle Repair® Prep Cleanser

Oil-Free • Non-comedogenic • Soap-Free • Paraben-Free

Works quickly for visible results in just one week.

Feel the power of exfoliators. Dirt, oil and dry skin can make skin look dull and rough. This rich cream cleanser with microexfoliants and glycolic acid gently exfoliates the skin without stripping to reveal skin that is visibly smooth, soft and radiant in just 1 week.

Gentle enough for daily use. Designed to work with the RAPID WRINKLE REPAIR® line. Use before applying RAPID WRINKLE REPAIR® Moisturizer to prepare skin for retinol. RAPID WRINKLE REPAIR® Moisturizer reduces the look of wrinkles in just 1 week.

Does not contain plastic microbeads.

Neutrogena® Hydro Boost Gel Cream Extra-Dry

★★★★★ 4.6 2646 Reviews

1584 out of 1677 (94%) reviewers recommend this product

Write a review

Neutrogena® Hydro Boost Gel Cream for Extra-Dry Skin contains hyaluronic acid which replenishes vital water content within skin's surface for more resilient, glowing skin. Ideal for dry, sensitive, and acne-prone skin, this face cream from a dermatologist-recommended skin care brand instantly delivers 9x more hydration compared to untreated skin. The lightweight face moisturizer is formulated with hyaluronic acid, dermatologist-recommended hydrator that binds to water and hold it within the skin's surface, plus Natural Moisturizing Factors, including amino acids, electrolytes, and essential lipids to hydrate and help smooth skin's surface. The velvety cream is clinically proven to hydrate skin for 72 hours, leaves skin feeling plump and glowing in two weeks and more resilient in four weeks. The daily face moisturizer is free of fragrance, dyes, parabens, phthalates, and non-comedogenic, so it won't clog pores. To use as part of your skin care routine, apply the hydrating cream to face and neck after cleansing.

- 50ml recyclable glass jar of Neutrogena® Fragrance Free Hydro Boost Gel Cream for Extra-Dry Skin with Hyaluronic Acid designed for dry, sensitive and acne-prone skin provides long-lasting hydration for skin that feels more resilient and glows day after day.

For every skin tone and skin type

Ideal for normal to extra dry skin
